

GravoCare Laser

PREVENTATIVE MAINTENANCE PROGRAMME

You've made the investment in the best marking machinery in the world. Isn't it worth maintaining it?

Our GravoCare Preventative Maintenance Programme is designed to ensure your Gravotech machinery will continue to perform its job day-in, day-out for many years to come.

What's included

- Belt inspection and adjustment
- Inspect and clean mirrors and lenses
- Bearing inspection and lubrication
- Laser source power measurement
- Operator cleaning assessment
- Firmware upgrade (if required)
- Marking quality check
- Written report
- X, Y and Z axis alignment
- Air assist and fan filter inspection

What's not included

- General machine cleaning
- Freight to and from our workshop
- Replacement parts
- Software configuration and training
- Additional labour for part replacement

Cost: We charge a simple fixed rate for each machine, plus a single reduced-rate travelling charge per visit (calculated on a return trip from your closest office):
