- Notes:
1. AMD Processors are not suited to run Gravostyle due to maths co-processor capability – they will run but not efficiently & may not communicate at all in some cases
  2. A discrete (non-integrated) video card is preferred
  3. The more RAM the better
  4. Uninstall Gravostyle software before setting up a new version.
  5. Internet access is recommended as the licence file for Gravostyle 8 is cloud based and technical help can be provided over the internet using TeamViewer
